# QUERY FORM.

On examination of the return of observations made at Coryton 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

| QUERY. | REPLY. |
|---|---|
| A comparison of your rainfall return for 1925 with neighbouring stations suggests that an omission has occurred from the 7th to 11th December, as shown below.<br>Kelly House · 92 in.<br>Coryton —<br>Mary-Tavy 1·24 in.<br>It is recommended that a value of 1·00 in be adopted. The total for Dec. (4·69) is not in agreement with the sum of the daily values (4·62). If you concur in these amendments the total for December will be 5·62 and the year 53·20 inches. We shall be glad of your comments on these points.<br>H. L. Carter<br>17.6.26. | An omission is not entertained, although the Kelly and Marytavy figures might suggest that such has occurred it is quite possible for either of these places to have a heavy rainfall and we none at all, as an instance: on the 11th inst; we had ·72 in, while at Tavistock which is no more than 6 miles as the crow flies there was none, This is no farther off than Kelly or Marytavy.<br>W. H. Blatchford<br>28/6/26.<br>There is no doubt that omission did occur & the suggested interpolation of 1.00 in. is adopted.<br>H. L. C. 1.7.26. |

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which filed in the Meteorological Office.

1. The amendments indicated in red ink are adopted..........
2. Necessary corrections made in Monthly Return..........

Mr Glasspoole

Did we ascertain whether this was taken in inches or mm? We wrote last year. If not known see Catechism,

C.S.

Mr. Salter.

Yes inches & mms -
But 506.3 mms = 19.94
& inches version = 20.29.
Shall we print this as two records?

**A.M. Form 906.**

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, S.W. 7.

## QUERY FORM.

On examination of the return of observations made at Dawlish 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

| QUERY. | REPLY. |
|---|---|
| A comparison of your rainfall return for 1925 with neighbouring stations shows that on certain dates your entries are not in good agreement with the places set out below. | Have examined the returns for rainfall & cannot understand the difference between Luscombe Castle & our station as we are not far apart & the readings should be about the same. Teignmouth also agrees with Luscombe so there must be something wrong with my records, though these are regularly & carefully taken each morning. Am having the container examined to see if sound. |

| | Luscombe Castle | The Lawn. | Teignmouth. The Shrubbery. | Adopt |
|---|---|---|---|---|
| Jan. 14-16. | ·53 | – | ·44 | ·50 in |
| " 31. | ·18 | – | ·18 | ·20 " |
| Feb. 22. | ·43 | ·05 | ·43 | ·50 " |

| " 29-30. | ·31 | – | ·30 | ·30 " |
| July 22. | ·16 | – | ·13 | ·15 " |
| Aug. 5. | ·33 | – | ·38 | ·35 " |

It is suggested that the values set out in the last column should be adopted. If you concur in these amendments the totals will be Jan. 5·63, Feb. 5·02, April 2·69, July 2·62, Aug. 2·27, and for the year 38·80 inches. We shall be glad to have your comments on these points.

H. S. Carter
18.6.26

Under the circumstances it would be advisable to adopt the figures set out by you making the total rainfall for the year 38·80 inches.

Dear Sir

I am sorry there was a discrepancy in my Rainfall Return 1925.
I went to India early in Decr & the return was made by my boy.
I agree with your amendments. Vide enclosed which I had already made out

Yrs truly

## QUERY FORM.

On examination of the return of observations made at Devon & Exeter Institution 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

| QUERY. | REPLY. |
|---|---|
| The entry on your rainfall return for April 27 appears low when compared with neighbouring stations as shown below. | Corrected figures |
| Exeter The Close ·85<br>Devon & Exeter Institution ·37<br>Exeter Hele's School ·82 | April 27. 0.87.<br>Total for month 3.69.<br>Total for year 35.13. |
| If you have no reason to the contrary we would recommend that ·87 be adopted making the total for the month 3.69 and the year 35·13 inches. We shall be glad to hear that you concur in this amendment.<br>H. L. Carter<br>29.6.26. | |

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

# QUERY FORM.

On examination of the return of observations made at

Exmouth, Nidderdale 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

| QUERY. | REPLY. |
|---|---|
| The entry on your 1925 rainfall return for May 25th receives no support from neighbouring stations as shown below<br>Exmouth Vernham Dean —<br>-do- Highfield —<br>-do- Nidderdale ·34<br>-do- Heey House ·01<br>We would suggest that the entry of May 22 (·34) has been accidently repeated and that "Nil" should be adopted for the day in question making the total for the month 4·29 and the year 33·96 We shall be glad of your comments on this point.<br>H. E. Carter<br>28.6.25. | Mrs Herbert Stewart is sorry she is away from home, & cannot at present give particulars of the May 25th rainfall. Very likely as you say there was a mistake in filling up the form. Kindly fill it in as "Nil". Mrs Stewart will look the entry up when she returns home. but without doubt she must have made a mistake. |

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

# QUERY FORM.

On examination of the return of observations made at Exmouth Vernham Dean 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

## QUERY.

A comparison of your 1925 rainfall return with those of neighbouring stations suggests that omissions have occurred in January and February as shown below

| | Exmouth Nidderdale | Exmouth Highfield | Exmouth Vernham Dean | Exmouth Hilly House |
|---|---|---|---|---|
| Jan 22 | ·03 | ·03 | - | ·03 |
| 24 | ·28 | ·30 | - | ·40 |
| 25 | 1·32 | 1·21 | - | 1·10 |
| 26 | ·99 | ·87 | - | ·86 |
| Feb 5 | ·30 | ·30 | - | 33 |
| 6 | ·05 | ·04 | - | ·05 |

If you have no reason to the contrary we would recommend that values of ·03, ·30, 1·25, ·90, ·30, and ·05 inch respectively be adopted, making the totals for January 4·85 and February 4·41 The amended total for the year will be 34·27 inches.

We shall be glad of your comments on these differences.

## REPLY.

I am so very sorry, but I was in Italy at the time, & our gardener was supposed to measure - I conclude this is correct, or not much difference. There is generally a slight difference between us & Nidderdale & Highfield.

E. F. Gillman

Adopt suggested values.
